

Bird Spike 2000™ Polycarbonate Bird Spikes

Bird Species	Pigeons, seagulls or larger birds
Where to Use	Ledges, I-beams, parapet walls, conduits, signs, flat or curved surfaces
Material	UV protected polycarbonate plastic one-piece rigid construction
Bird Pressure	Light to Heavy
Warranty	5 years

Bird Spike 2001™ creates an uneven surface preventing birds from landing on flat or curved surface areas encouraging them to fly to a different spot.

Polycarbonate bird spikes installed on ledge.

Advantages & Benefits

- Lowest cost bird spike.
- Will not harm birds.
- Virtually invisible.
- Non-conductive. Will not interfere with electrical or communication transmissions.
- Rigid, super strong, and unbreakable.
- UV protected and weatherproof. Won't be affected by extreme temperatures -200° F to 310° F (-129° C to 154° C).
- 2' (60.96 cm) lengths. Cuts labor time in half.
- Easy to install. No maintenance. Can be glued, screwed, or tied down.
- Manufactured by Bird•B•Gone® in the USA.

Available in 7 colors!

Glue troughs along the base make for easy installation. Bird•B•Gone® offers construction grade adhesives.

To install: Surface should be clean and dry before installation. Select width of bird spike based on the surface to be covered leaving no more than 1" on either side. Glue, screw or tie down to the surface.
