

Fast Back

15th EDITION
PRODUCT CATALOG

A professional rodeo cowboy is shown in action, riding a powerful brown horse with a white blaze on its face. The cowboy is wearing a light-colored cowboy hat, a blue long-sleeved shirt with various sponsor logos (including "Smart", "PRCA", and "ROPER BOOT"), blue jeans, and black boots. He is holding a red rope in his right hand. The horse is galloping across a dirt arena, with its front legs extended forward. In the background, there is a blue metal fence and a yellow structure, possibly part of a rodeo arena. The overall scene is dynamic and captures a moment of intense competition.

Fast Back

"I've been using Fast Back ropes and boots for years and have always depended on the outstanding quality. Using the very best tools available is important in my job."

Clay Tryan, 3-Time PRCA World Champion Header

Thanks to our customers, Fast Back Ropes has experienced phenomenal growth in the last couple of years. We introduced three new popular core ropes, the Venom, Centerfire2, and the Excalibur in 2018. In July of 2019 we introduced the Cobalt, a poly blend rope with a core. The Cobalt quickly became a best seller and has remained in that top spot. Ropers especially like the enhanced tip weight and durability. After months of testing, in December we introduced a new breakaway rope, the Athena. The Athena is a poly rope with a dyed purple poly core. Please check out these two new ropes on the following pages.

When a new rope is introduced, be assured that it has undergone rigorous testing in multiple conditions. The variety of ropes we offer is to accommodate ropers in every climate and humidity situation. Due to the type of string used, some ropes will outperform in warm and dry weather conditions, whereas others hold up best in cooler weather.

Fast Back Ropes was created in 1995 with a mission to build the best rope on the market. That will always be the number one goal at Fast Back Ropes. In addition to building the best products possible, we strive to treat customers with the respect they deserve.

Quality always comes first at Fast Back Ropes and is achieved due to experienced employees, many who have been with Fast Back since we've been in business. We could not enjoy the growth we've experienced over the last few years without you, our customers, and we thank you for your continued business. We would like to invite you to visit the rope shop if you are ever in the Granbury area.

Coy Upchurch

**PRO
EQUINE
GROUP**

THE ROPE SHOP

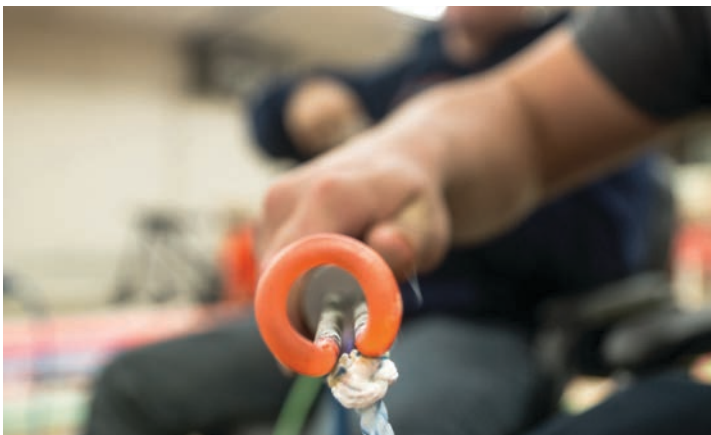

Each Fast Back rope is individually made by hand at our shop in Granbury, Texas, USA. We have included some images to share with you to help you understand what goes on before your rope arrives at your door.

Each rope consists of different types and amounts of nylon and polyester fibers. The proper combination of fiber is pulled for each rope and then twisted into three or four strands. These strands are spun into three or four strand "rope bodies". This all happens on the rope machine and is handled by the highly skilled and trained rope makers.

These raw bodies are then waxed in a hot wax pot. After waxing, they cool and sit for at least 24 hours. The next step is the tying room. Here all knots are hand tied: back knots, crown knots, and eyes. The rawhide burners are hand sewn and tail tags are put on. The ropes are then coiled.

Once they are coiled, the finished ropes must sit on the finish rack for at least 24 hours before shipping. Each step is closely monitored for quality and consistency. Each member of the production team is highly skilled at his job and takes pride in his work. All Fast Back ropes are proudly made in America.

Fast Back has designed rope tags for better identification.

- All tags include bar codes.
- Tags are color-coded to reflect the lay for quick and easy identification (as shown in the chart).
- Color-coding is displayed at the TOP of the tag on head ropes and at the BOTTOM of the tag on heel ropes.

Fast Back has several branded items that may be used for special events and promotions. If you are an existing dealer, please contact the office at least 30 days prior to your event, and we will work with you to help make your event special.

Fast Back Rope Display

This popular Fast Back Rope display consists of:

- Four 8' grid, one 4' grid
- Three rods
- 90 "S" hooks
- Two hanging baskets

Each rod can hold approximately thirty full size ropes. Rods can be substituted with arms that hold approximately eight ropes. More 12" rods can be added to hold sport boots, caps, T-shirts and hoodies if needed. Can be customized for 30 to 90 ropes.

FAST BACK SADDLE PADS

Contoured Grey Wool felt roper pad. Leather reinforced contour runs the length of the pad for increased durability and stability. The wool felt is very dense providing optimum shock absorption and support. The entire pad is made of one piece of continuous 31" x 30" high density felt to limit stretching and pulling it out of shape.

Fits snugly on your horse's back right away, because of the contour. Oil tan wear leathers finish the edges. It is best to have one pad per horse since the pad conforms to the individual horse with use and sweat. May be used by itself under the saddle, or with a saddle blanket.

FB 1" ROPER PAD

FB 3/4" ROPER PAD

FAST BACK BELL BOOTS

Maximum Overreach protection for your equine athlete.

The high-tech materials used in these new boots provide the ultimate protection against heel bulb and coronary band injuries on the front lower limbs. Highly durable impact patch on the back makes them super tough and tear resistant against strikes and impact.

- The Armortex™ strike plate on the back of the boot absorbs and deflects impact to protect the sensitive heel bulbs and coronary band on your horse's heels.
- A durable, flexible Kevlar™ band around the bottom of the boot reduces the tearing of the edges prolonging the life of the boot. This band also reduces the tendency for the boot to ride up when working in deep footing, maintaining proper boot placement on the hoof for maximum protection.
- The boot body is made of ballistic nylon for durability, and double locking hook and loop closure hold the boot in place.
- Interior heel bulb maintains proper positioning during aggressive maneuvers.
- Black, White, Red, Royal Blue, Orange, Purple, Turquoise, Silver
- SIZES: M, L

ITEM #: FB BELL

FAST BACK SPORT BOOTS

Front & Hind Boot

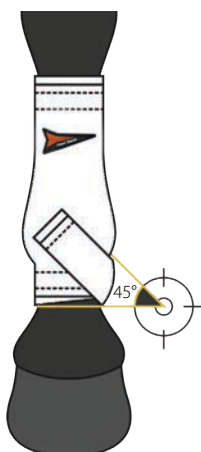

High performance support for tendons and ligaments, and impact protection for equine athletes.

Designed with both horse and human in mind, this sleek new boot combines protection and support with ease of application. Simple to put on correctly so you make sure your horse has the edge for ultimate performance and health.

- Patented Sling Technology: a specially designed strap wraps under the fetlock, up and around to the front of the cannon bone to provide critical lift and support for the suspensory ligament.
- Does not interfere with the bell boot in the back, as the pastern flexes, yet the boot is still long enough to protect the fetlock on all sides from crossover injuries.
- Highest grade hook and loop closure is durable and stands up to hard work, maximizing the life of your boot.
- Five separate layers offer ultimate protection from concussion, blows and impact. These layers are laminated together to create one streamlined body allowing accurate positioning, stability and ease of application.
- Boot forms to each horse's legs with use. It is a good idea to have one pair per horse for ultimate fit and protection.
- Bound boot edges help the boot last under the pressures of the hardworking equine athlete.
- Hind boot is designed specifically to fit the horse's hind legs. It is taller than the front boot to provide top quality protection and support to the hind legs.
- COLORS: Black, White, Red, Royal Blue, Orange, Chocolate
- SIZES: M, L

FRONT BOOT ITEM #: FB SBF

HIND BOOT ITEM #: FB SBH

Our Medium size fits most Quarter Horses. If your horse is larger than average, or big boned, the Large may fit better.

When properly applied, the final position of the suspensory strap should be at a 45° angle to the ground. Note: 1/4" to 1-1/2" edge overlap is desirable.

KID ROPES & ACCESSORIES

Fast Back kid ropes are designed for ropers of all ages. They are all made just like adult ropes; individually spun, waxed, tied, burner hand sewn in, and hand rolled. They are all available in assorted colors.

One of the longest kid ropes on the market at 31' in length, the Lil Cobra is a great reaching rope. The length and smooth feel make it the perfect choice for dummy roping competitions and goat ropings. The Lil Cobra is made with the same attention to detail as our full size ropes. This versatile little four-strand is 1/4" in diameter and features a rawhide burner for added durability. Assorted colors.

1/4" x 31' O-KR Lil Cobra

Kid dummy rope for use on roping dummies like the Super Goat. Long enough to reach, yet small and light enough to allow smaller kids to develop a correct swing. This rope is the ideal combination of length and small size. Make sure your kids have the best tools to develop their swing correctly while having fun! Assorted colors.

1/4" x 31' O-KR Bottlerocket

The ultimate 'play' rope for all ages. Small in diameter, soft and short enough to make it easy to handle for small ropers. Ideal first rope. Small and soft enough to let small hands and arms develop their swing correctly. Great for small roping dummies, roping goats, and other small moving objects including siblings' and parents' feet! Assorted colors. **1/4" x 18' O-KR Vapor**

Great transition and dummy rope. Ideal to move up from the 1/4 size, yet smaller in diameter than regular head ropes. Small enough for ease of swinging yet has enough weight and length to reach on the dummy. Larger diameter than our other kid ropes, and the length of a full size head rope. Assorted colors. **5/16" x 31' O-KR Revolver**

The Hot Shot is a four-strand poly rope that is 8mm in diameter and 29 feet long. This poly rope is smooth, durable, has great tip feel, and makes a great dummy rope.

8mm x 29' O-KR Hot Shot

KID ROPE BAG

Perfect for kid practice ropes or an everyday tote. These unlined bags are coated to keep contents dry and clean. Royal Blue, Lime, Purple.

FBRB Kid

KID ROPING GLOVES

Tightly woven for durability, yet refined for maximum feel. Measures 5-1/2" from tip of longest finger to cuff. Bundle of 24.

FBRG BLK Kids

KID GIFT PACK

The perfect gift for the little roper. Includes an 18' Vapor, a Kid Rope Bag, a kid-size Fast Back patch, roping glove, and an autographed picture of 3-Time world champion, Clay Tryan.
