AccelTM

Spreader Sticker / Surfactant / Enhancer / pH Buffer

Accelerates and Improves Performance of:

Herbicides • Fungicides • Insecticides • Liquid Fertilizer

Important for use in high pH water conditions found in Western States

NET CONTENTS: 1 QUART (32 OZ.) 945 ml • NET WEIGHT: 2.28 LBS (1.03 KG)

Accel is a special formulation of organic based materials that act as a spreader sticker, wetting agent, pH buffer and penetrant.

Accel contains a natural agent that lowers the surface tension of water and aids in the surface interaction of the plants and soil for improved weed killer and bug killer effectiveness and nutrient availability.

The concentration of organic acids in **Accel** provides an excellent buffering agent in soil and water. **Accel** increases the effectiveness of weed killers, bug killers, fungus killers and fertilizers.

With weed killers, bug killers, fungus killers and defoliants use 0.5 oz to 1.0 oz of **Accel** in gallon of water.

DILUTION RATIO

Surfactant for weed killers,
bug killers, and fertilizers ect.
Use the same dilution ratio for pH buffer.

1-2 Tablespoons (1/2 - 1 oz.)
into one gallon of water
(29-58 ml into 3.75 liters).

Conversion of liquid measurement:

1 Tablespoon = 3 teaspoons = 1/2 fl. oz. = 14.75 ml
2 Tablespoons = 6 teaspoons = 1 fl. oz. = 29.5 ml • 1/4 cup = 2 fl. oz. = 59 ml

- 1) Add water to sprayer tank.
- 2) Add Accel then chemical to be used.

If uncertainty exists regarding Accel and chemical compatibility, a jar test should be performed prior to sprayer or tank mixing.

Keep out of reach of children. • Keep out of direct sunlight.

GUARANTEED ANALYSIS

Total nitrogen (N) 2.0%
2.0% Urea nitrogen

Derived from urea

NON PLANT FOOD INGREDIENTS

Saponin 0.15%
Derived from Quilaja Saponara
Malic Acid (Buffer) 0.05%

Adding more than the recommended amount may burn plants.

THIS IS A CONCENTRATE
(Mix with water)
