GRASS SEED MIXES

In the Intermountain West, our soil and conditions are unique. Whether you're planting a new lawn or overseeding, our grass seed mixes are specially blended for you. Choose from a variety of combinations; each selected from seed types to successfully grow lawns in a full sun, shade, drought or high traffic environment.

KENTUCKY BLUEGRASS GRASS SEED

Versatile & high quality grass common in most yards in the Intermountain West; extreme cold tolerance.

BLUEGRASS MIXES

GREENSTAR 5 KENTUCKY BLUEGRASS MIX

5 premium Kentucky Bluegrass varieties; superior green lawn all year long.

• Seed mix options vary by location. •

ESCALANTE

TURF TYPE FESCUE MIX

Heat & drought tolerant grass;
excellent disease & pest resistance.

LIBERTY

FESCUE & BLUEGRASS MIX

Hardy with longer growth season;
drought, disease, & insect resistant.

CABIN MIX

GRASS SEED

High elevation grass (up to 7,500 feet);
can be mowed or let to grow naturally.

DIXIE HEAT

FESCUE & BLUEGRASS MIX

Heat, drought & disease tolerant grass; looks & feels
like a traditional lawn; more fescue seed than Liberty Mix.

**HOT / DRY
MIXES**

QUICK GREEN

GRASS SEED MIX

Fast growing & high traffic tolerant;
excellent for lawns in sun or shade.

CHIPMATE

PERENNIAL RYEGRASS MIX

Excellent high traffic tolerance;
superior turf with disease resistance.

**HIGH TRAFFIC
MIXES**

REAL SHADE

GRASS SEED MIX

Long living, thick turf;
excellent for heavy shade.

DIXIE SHADE

TURF TYPE FESCUE MIX

Excellent heat tolerance;
seed varieties selected for dense shade.
