

MILK REPLACER

**FEED
PERIOD:**

DAY 2 TO
WEANING

Intermountain Farmers Lamb Milk Replacer is an **instantized, high-fat, all-milk protein, complete first feed for baby lambs**. Intermountain Farmers Lamb Milk Replacer is designed to mix easily with water and handle through a nipple. IFA Lamb Milk Replacer provides the protein, energy, minerals, trace minerals and vitamins needed by baby lambs from their second day of life until weaning.

ALL-MILK PROTEIN

Performance is typically greater when animals are fed an all-milk protein milk replacer. The primary source of protein in IFA Lamb Milk Replacer is dried skim milk and whey that has received low heat treatment and is highly soluble. IFA Lamb Milk Replacer provides highly digestible, all-milk protein.

HIGH ENERGY

Baby lambs have a high energy requirement and require that the energy be easily digested.

IFA Lamb Milk Replacer provides highly digestible energy in the form of milk sugar (lactose) and emulsified animal fats and vegetable oils. The digestible energy content is adequate to support rapid growth and development of young lambs.

ADDED MINERALS AND VITAMINS

Minerals, trace minerals and vitamins are required in a complete ration to support growth and development as well as disease resistance.

IFA Lamb Milk Replacer supplies all needed minerals, trace minerals and vitamins to promote efficient growth and development by young growing lambs.

FEATURES AND BENEFITS OF IFA LAMB MILK REPLACER FORMULA

DIGESTIVE HEALTH

Proteins all come from pasteurized milk sources. Performance is greater when lambs are fed an all milk protein diet. The ratio of high protein and high fat to low lactose is similar to ewe's milk, allowing for high digestibility

UNIQUE FORMULA

IFA Lamb Milk Replacer is manufactured using a unique low heat process. This protects the ingredients from heat damage during processing, as well as allowing for a palatable, easy mixing product that stays in solution.

BALANCED NUTRITION

High quality ingredients provide high energy and the potential for optimal growth. Well balanced amino acids and fatty acids allow the potential to be realized for accelerated gain and healthy lambs.

ESSENTIAL NUTRIENTS

The entire nutritional requirements for baby lambs are contained in this formula. Fortification with vitamins and chelated minerals promote healthy lambs. Includes selenium yeast and the highest level of vitamin E in any product.

Our IFA Lamb milk replacer contains a specialty blend of Mannan Oligosaccharide's, Beta Glucans and yeast cultures that provide some of the following benefits:

- Enhances immune system
- Maintains gut health
- Optimizes feed utilization
- Stimulates appetite
- Regulates overall performance
- Increases dry matter intake
- Improves fiber and starch digestion
- Stabilizes rumen pH

IMPORTANT

Individual lambs vary in requirements. Adjust the amount of powder and/or liquid milk replacer fed according to the lamb's body weight and appetite, the environmental conditions and your own good judgment. When in question about nutrition requirements please consult with your veterinarian or animal nutritionist.

PROVIDE FREE ACCESS TO CLEAN, FRESH WATER AT ALL TIMES.

IFA Lamb Milk Replacer has been formulated specifically for lambs and is not intended for other species.

IFA LAMB 24/30 ALL MILK-ACE (WITH MOS) LAMB MILK REPLACER - NON-MEDICATED GUARANTEED ANALYSIS

Crude Protein, Minimum	24.00%	Selenium, Minimum	0.3 ppm
Crude Fat, Minimum	30.00%	Lactose, Maximum	25.00%
Crude Fiber, Maximum	0.15%	Vitamin A, Minimum	30,000 IU/lb
Calcium, Minimum	0.75%	Vitamin D3, Minimum	10,000 IU/lb
Calcium, Maximum	1.25%	Vitamin E, Minimum	200 IU/lb
Phosphorus, Minimum	0.70%	Lactic Acid Producing Bacteria . . .	2 billion CFU*/lb
Copper, Minimum	2 ppm		
Copper, Maximum	6 ppm		

(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacteria bifidum, Streptococcusdiacetylactis, Bacillus licheniformis, Bacillus subtilus)

*CFU (Colony Forming Units)

Available in two sizes:

25lb. Bag - 802020

50lb. Bag - 802021
