Add your personalized company information.

QUALITY AND PRICE: We don't have all the fancy names for our products like some of our competitors might list. But compare our products with any out there for price, quality and quick sell-through in your store and try to find something better. Retail customers call us all the time telling us they love our products. We guarantee everything we sell for workmanship and materials. If by chance you get something that is not up to par, contact us and we will replace it free of charge, just call for an RA number.

CUSTOM ORDERS: We do produce custom scarf designs and custom outerwear with your private labels. Generally we need at least 200 pieces per item or more depending on many factors. Contact us for more information.
